FOCUS ON THE SQUARE

MODERN

In all aspects of life, as the need for orders and systems is enhanced, the desire for simplified and structured design will be higher. Interior with basic geometric arrangements, delicate three-dimensional effect and solid color palette would deliver us the ease and comfort as well as the creation of lively space by combining bold and contrasting geometric, color and patterns.

BRING NATURE

NATURAL

Vintage flower pattern wallpaper gives us the feeling that we are re-connected with nature and that we are under protection. It reminds of the free and easy atmosphere of countryside by applying comfortable and nature friendly elements. It is recommended to place big plants such as foliage plants to remind of refreshing and cool Mediterranean or the tropical regions. It will not only bring the natural beauty and energy of the house but also it will be the familiar and comfortable space for us.

MIX IN NEW CLASSIC

CLASSIC

The environment full of political and social anxiety makes us to focus on the authenticity of human beings, humanity, reliability and values. It is the same for the time value of the old things. The classic design that is familiar but new by adding modern senses to traditional and familiar motives will present attractiveness and luxury that is not boring like the old ones.
